Time: 9:00 to 5:00

Cost: \$109

Description: **New!** Lightroom is an amazing application that makes your digital workflow more efficient. It does editing, processing, and output preparation. It is also a complete photo management software solution and is especially great for photographers who shoot in RAW. It interfaces seamlessly with Photoshop and Photoshop Elements. For this class, basic computer literacy is essential. Bring a laptop computer, PC or Mac, with Lightroom 3 loaded. For this class, you will be working with a selection of images provided to you on a CD. Class will cover such topics as working with the Lightroom workspace, catalogs; keywords; editing and output options. This will be an intense, hands-on class. You will be given a CD Resource disk to take home with you.

Lunch: One hour on your own. Bring a sack lunch. Or you may travel to the nearby Mesa Mall area

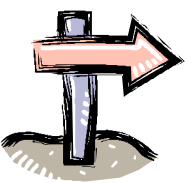

Skill Level: Intermediate

Equipment Needed: Laptop with Lightroom version 3 installed. Must be version 3, not an earlier one. You may also download a free 30 day trial version from Adobe

Pre-Req: Although an introductory class, it will be helpful to you if you already have some knowledge of Lightroom.

Other Notes: This is a hands-on class.
